If you see your name listed here bring your rifle to Boonesborough and be ready to shoot. If you don't see your name listed here bring your rifle to Boonesborough and be ready to shoot. I will talk more about the Interstate Shoot later on in this newsletter.

Looking back;

The Corps held to shoots this summer. Both were a big success. The Kentucky Cup Match was held for the 14th time at Morehead and a record 11 teams participated. There was great weather, great scores, and great companionship. This has turned into a reunion of sorts. In August Al Woeste and the Lloyd Area Club hosted our first ever Blanket Shoot. We had a nice turnout and a great shoot program. Don't miss out on this match next year!

Looking forward;

Kentucky's Corps 52nd annual Interstate Shoot, October 3 & 4. There will be a slight shift from the normal format for the weekend. Friday at 11:00 a.m. we will meet at the Recreation Hall in the campground at Boonesborough and travel to Keeneland for opening day of their fall meet. If you would like to go, contact me a.s.a.p so that I can purchase your ticket. Normally Pa. hosts a kickoff meal in the campground recreation hall on Friday evening. That part of the event will not be held this year. The Interstate Shoot will start at noon on Saturday. Please show up by 10:30 so that our team rosters can be filled. The guy in the picture below is Pennsylvania's tog gun so.....

After the match we will once again travel to the picnic shelter #2 in the main entrance to the park for awards and supper. We will be catering the meal but **DO NEED DESSERTS!**

Fall Rendezvous 2014 will once again be held at the Bucksnot club near Elizabethtown on October 26, 27. Last year the boys down there put on a first class rendezvous. Expect as much this year. The Corps will hold its' annual fall business meeting at 4:00 which will include election of officers (president, V.P., Secretary/treasurer). If you wish to run for the office of president please, please indicate that wish in writing prior to the meeting.

I am obligated to post this paid political advertisement;

OSSIE SEZ, RICKY FOR PREZ!!!!

Passages;

A very few people come along who actually change how we look at and do things. Almost nobody took an art form 200 plus years old and gave it a new "old" twist. Few of us are bold enough to step out of our comfort zones, re-examine things, and give them an easily recognizable "school" of their own. Jack Rouse was making his own style of gun with his own parts long before many thought of that as an option. He left his mark on people too. You can still see influences of Jack's work in the builders that he has mentored and the lives that he touched. Jack was a big influence on our Corps. This is a tough good-bye.

Cast round balls. Fill your horns. I will see you in October!

NEWS FLASH, AQUITTAL IN PENNSYLVANIA!

It seems as if through some political maneuvering by your President and his council that the Great Commonwealth of Pennsylvania has decided to dismiss all wrong doing against a certain member of our Corps in regard to a blatant disregard of their traffic rules. Let us hope that he drives his other vehicle to New Castle next year.
